

Hi superstars!

READING TIME

Start with some reading today to warm up your brain.

PHONICS TIME

Today you can watch my second video about oi. Can you say the words and blend them together.

LITERACY

Over the next few days we are going to have a go at writing our own story about how Beegu lands in our garden and what might happen next. Can you draw a story plan today of what you think would happen if Beegu landed in your garden. You have a bank of ideas from yesterday about the kinds of things he might get up to. Remember just draw the story today.

MATHS

Today we are going to move on to another really important maths skill. We would like you to practise your number bonds to 10 today. If you have already got your number bonds to 10 award then you need to move on to making 20. Use your teddies to find different ways to using two numbers to make 10. Maybe you could write the number sentences down.

This afternoon we will be recapping what we found out about materials. Can you go around your house and find things made of glass, metal, plastic, wood, rubber etc. Can you describe them. Are they bendy, hard, transparent, translucent? Maybe you can draw them and write down what they are like.

Have an amazing day!

Love Mrs.Oakes
