

# Easter Bunny Paper Handprints

## You will need:

- Colourful paper or card
- Pencil or pen
- Scissors
- Glue
- Extra pieces of colourful paper
- Felt tip pens

1) First, place your hand on a piece of colourful paper or card.

2) Draw around your hand, or ask a friend to help you.

3) Cut around the outline. For the best results, we found our paper bunnies looked cutest when we cut the thumb a little thinner than the outline.

4) You now have your paper handprint. Time to transform it into a bunny!

5) First, fold the middle finger backwards.

6) Then fold the little finger and thumb inwards, to become the arms and hands of your Easter bunny.

7) Now, use felt tip pens to add decorations and details to your handprint bunny. We found our paper bunny looked best if we outlined the arms to make them stand out from the body.

8) Now, cut out an object for your Easter bunny to hold from your spare colourful paper. Add decorative designs using felt tip pens or pencils.

9) Use glue to attach the object to the bunny's tummy. Then glue the end of the arms on top of the object. We thought our paper bunny looked best when we made the arms stand up slightly in a loop from the paper, so we had a 3D handprint bunny.

10) Our paper handprint bunny is a cute quick Easter craft. It would also look great on the front of an Easter card.

Make a whole burrow of bunnies with this quick paper craft. Explore different decorations and give each bunny a different object to hold. You could even attach them to string and make a paper chain of handprint Easter bunnies.
