Frog workout

Use Frog to practise subtracting by jumping through 100s.

- 7** Before you start, which subtraction do you think will have the smallest answer? Why?

Where will Frog jump to first? And then? Don't forget to add all his hops!

8 $423 - 379 =$

9 $515 - 468 =$

10 $934 - 886 =$

11 $456 - 375 =$

12 $738 - 682 =$

Subtraction challenge!

- 13** Choose four different digits from 1 to 9 to make this subtraction have the smallest answer possible.

$$5 \square \square - 4 \square \square$$

- 14** Choose four different digits from 1 to 9 to make the subtraction have the largest answer possible.

$$5 \square \square - 4 \square \square$$
