

Year 5 Spanish

Hola niños

I hope you are all well.

In Spanish we are going to be learning about La Calle Mayor (The High Street).

I would like you to sketch a map (similar to the one in the picture above) adding in the following Spanish vocabulary which you would find on a Spanish High Street. Some of the words have exactly the same spelling as in English (even though they sound different) which is helpful! Alternatively, you could list the Spanish words and do little drawings beside them.

el supermercado= the supermarket

el mercado=the market

el café = the café

la tienda= the shop

el banco=the bank

el hospital=the hospital

la oficina de turismo = the tourist information office

la oficina de correos= the post office

el museo= the museum

el hotel= the hotel

You may find it interesting to look on the internet at photos of a typical Spanish high street and see how it compares to one in England. If you go on to BBC Bitesize KS2 Spanish there is a topic called 'Exploring the Town' where you can listen to some of the new Spanish words and also a game and quiz that you can play. Have fun!

Mrs Garner Rodriguez

I
