

Hi everybody,

### **READING TIME**

Start with some reading today to warm up your brain.

### **PHONICS TIME**

Can you write my green oi words down today please. You can also practice the red words from my red words video.

### **LITERACY**

Today and tomorrow I want you to have a go at writing a story about Beegu. Some of you will be able to write a few sentences and others will write a bit more, that's fine do what you can. As you write try and remember the finger spaces and to sound out the whole word really carefully. Use the sound chart in your reading book or in your pack if you have one. Don't worry if you don't get it all finished as you have tomorrow as well.

### **MATHS**

Today I have attached a sheet for you to practise your number bonds. You can have a go at the number bonds to 10 and then move on to the number bonds to 20.

This afternoon we will be finding out about human features in our environment. These are things made by humans like the Tamar bridge and the shops. Can you use some construction toys at home to build some of these things. Then you could draw a map of Saltash and put them on.

Have an amazing day!

Love Mrs.Oakes
