

Thursday 27th January

Hi everybody,

READING TIME

Start with some reading today to warm up your brain.

PHONICS TIME

Can you write my green er words down today please. You can also practice the red words from my red words video.

LITERACY

Today we are going to have a go at writing our instructions for making a sandwich. Can you remember what we did yesterday? Watch my video again if you want. Now can you write your instructions for making a sandwich for Beegu.

MATHS

Today we are going to begin to look at some simple word problems in school. Can you do this activity <https://www.bbc.co.uk/bitesize/articles/zm8bn9q> and have a go at the word problems. Now can you use your toys just like the pandas and make up your own stories. You could pretend they were on a bus like we do in class.

This afternoon we will be making a 3D alien. Try and collect some junk and start creating your very own friend for Beegu. We will be having a few sessions for this so don't panic that it has to be completed today. Maybe just build the structure today and then we can do the next bit next week.

Enjoy alien building!!

Love Mrs.Oakes
