## Good morning Year 6!!

Hope you all had a good rest! Go anywhere nice?... what do you mean we're in lockdown?! 😊 Ha ha!!

It was brilliant to see so many of you on Zoom before half term!! Great fun! Thank you also to Alex for the fab quiz questions on space! 😊

Ok – and off we go again! It won't be long and we'll all be back together again creating havoc!

← **Maths:** This week we are learning more about area! I love shape work! 😊 Follow the lessons on the left, as usual. Don't forget, if you want to do more than one on a day, that's fine. 😊

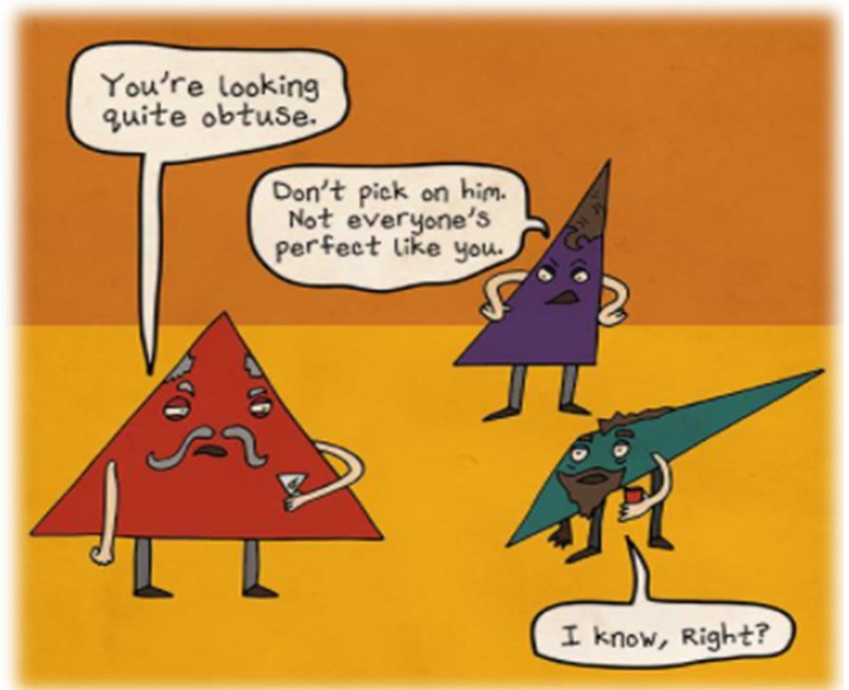

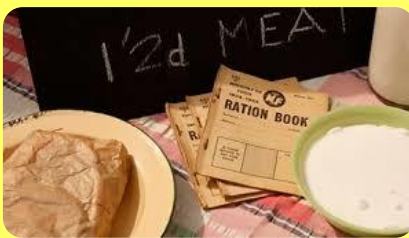

More videos on  
Area & Volume,  
from Maths Antics!

## English (D.T. & History):

I'd like you to continue thinking about rationing, but in particular, food. We all love our grub, whether we're real foodies, or picky eaters, everyone's got a favourite meal.

On the home learning page, I have made a sheet describing your activity for the week which is English and history combined.

**More history** – We started watching a really good series that was filmed in 2001 called **1940s House** which shows a family who have been 'taken back in time' and

### First episode of The 1940s House

<https://www.youtube.com/watch?v=t2196tud8Yc>

### How the eye works:

<https://www.bbc.co.uk/bitesize/topics/zbssgk7/articles/zp7f8mn>

### The Human Eye

<https://www.bbc.co.uk/bitesize/clips/zf9c87h>

Below is a link to a YouTube search on 'How the eye works – KS2,' which has loads of really good videos for upper juniors! Take your pick!

[https://www.youtube.com/results?search\\_query=how+the+eye+works+ks2](https://www.youtube.com/results?search_query=how+the+eye+works+ks2)

living exactly as they did in WWII. The house has been completely renovated and made to be just like a house during the war! It's really good! I would highly recommend watching it – your family would probably find it interesting too! The link to the first episode is to the left.

## Science

We'll be continuing with our topic on 'light' for another couple of weeks or so, before moving onto *electricity*!

This week I'd like you to look at the eye! Look out for a film from Professor ALAN Einstein – Albert Einstein's cousin, explaining more about the eye. 😊

Also look at the links to the left from BBC Bitesize.

Go through the **The Eye - LESSON PRESENTATION** on the home learning page.

**Activities:** There are a couple of activities to do! One is to label the eye and the other is a drawing activity – with the bonus of learning some interesting facts! Have a go and send me your masterpieces!! 😊

## Have you used your time to practise key skills such as reading, spellings and times tables?

Do keep reading! I have had some people come up to school to collect a new reading book, but not everybody has quizzed – don't forget to! 😊

Don't forget to complete an online **Star Reader Test** at home! If you're having a problem getting onto it, send Mrs Dunbar an email or a phone call, and we'll talk you through it! 😊

**Continue working through the Year 5/6 spelling list and test yourself! See downloadable link on home learning page.**

*Have a good week, and have a great half term break!!*

*God Bless, Mr Hill. 😊*

*Before you go...*

**Q: How do you keep a bull from charging?** Take away its credit card!

**Q: What did one plate say to the other?** Dinner is on me!

**Q: What is the difference between elephants and grapes?** Grapes are purple.

**I know – they're getting worse!! *Ha ha ha ha!!!***
