This week Year 5 have been using water colours to paint the Cornish Cheesewring and Hurlers and using acrylics to create beautiful Islamic art using their geometry skills from maths.

This week, Year 3 have been learning how to use an ordinance survey map, which links to next week when they will be learning how a river is formed. They will also be starting their new science topic of Animals including humans. In addition they will be continuing their fraction work and creative writing in English.

This week Reception class had a great time making their own stick men using breadsticks and chocolate or icing. They all agreed they were delicious!
