

Morning Year 5,

I am sorry that you are having to do your learning activities at home but I will try to make them as close to what we are doing in school so it feels like we are all together, even if we can't be 😊

English - Grammar

You have a set of different activities labelled day 1-5, concentrating on grammar which you need for Year 5 and 6.

Maths - Mental Strategies

Again, you have different activities, mainly focused on mental strategy for addition and subtraction. Follow the days 1-5 accordingly.

History - Vikings

Have a go at a couple of the homework activities in your book as they are all focused around our topic, Vikings.

RE - Ideas about God – Making Sense of it.

Christians see God as holy as well as loving. God's holiness is to do with being apart from all others, being pure without sin. Have a look at Exodus, 19:1-19. Draw/paint/design images that reflect how you see God from this passage. Think about using symbols, images, signs, colours. You could have a go at writing a haiku instead of the art, or have a go at recording a short documentary 😊

Science – Plants/Living Things

Watch [BBC BitesizePlants - KS2 Science - BBC Bitesize](#)

Can you draw and label a plant using scientific vocabulary. You could also go on a plant hunt and take photos or draw plants you find. Do you know what they are called? One step further - research their Latin names.

Take care,

Mrs Williams
