

## LITERACY

This week can you

- carry on with your daily reading
- practise any of your sounds.

This week we will be using the story plans from last week and creating our own stories.

First talk through your story with a grown up. Can you think of a really interesting way to start your story?

Use the plan we made last week

Now can you use the special sea creature paper to write the story up.

One of our activities this week will be to have a bubble sports afternoon. Could you have your own one at home. Have some running races and some obstacle races. We will be making flags as well to cheer our friends on as they race.

## Year 1 Summer term 2 2020

### All Aboard!!!

## MATHS

Maybe this week you could go back and play some of the activelearn games.

I have also attached a maths summer fun booklet with lots of maths in for you to practice your skills.

## RE

This week we will be making a Hannukah candle. Can you write a prayer on some paper and then roll it up and draw a flame to stick on.

## Water Play

We will be having a water play session in our bubbles. Can you enjoy some water play. This might be near your house or maybe you can go to the beach!

Finally at the end of the week we will be having a picnic. We will be baking some things for our bubble and then enjoying eating them outside and playing some games. We will even be making party hats. Can you have a picnic too? This could be a celebration of how amazing you have been in lockdown!!
