

**Friday 27<sup>th</sup> March**

Good morning everyone - it's the end of a week. Well done for working so hard on all of your home learning this week. A great effort to you all.

Keep on sharing stories and having some outdoor fun.

Some little jokes for today:

Q: What kind of photos does a turtle take? A: Shellfies.

Q: What do you call a famous turtle? A: A shellebrity.

Q: What do you call a sea turtle that flies? A: A shell-icopter!

**Today's English -**

Please complete your recount of your trip to the Aquarium. You will need to write the final paragraph and a little conclusion (a final couple of sentences which sum up the day). When you have finished, read it all through from the beginning to check it makes sense and that it has all the correct punctuation in it. Can you neatly correct your own mistakes in a coloured pen or pencil, just like we do at school? Check off your work against our toolkit. Well done on completing this - you're all stars or should I say star fish?

**Maths - choice of activities - practical or problem solving.**

- 1) Continue to play in the shop or market stall you set up on Wednesday. How much would it cost to buy 2 or 3 items? How much change would you get if you paid with £1?

**OR**

- 2) Log onto [www.activelearnprimary.co.uk](http://www.activelearnprimary.co.uk)

Complete the problem solving activity - Magic 147. I have also uploaded a copy of this to the website in our Y3 area.

You do not need to print the sheet off. You can solve this practically, make cards or use a fun way of recording if you want to such as chalk on the patio outside or using paints to show your working.

**Topic**

Please continue with what you started yesterday or choose another activity from the RE topic sheet.

Take care everyone and have a great weekend.

Mrs. Jones
