

Thursday 4<sup>th</sup> February

Hi everybody,

### **READING TIME**

Start with some reading today to warm up your brain.

### **PHONICS TIME**

Can you write my green ear words down today please.

### **LITERACY**

Today we are going to have a go at writing about some of the characters in our story. Can you go back and read some of the words you wrote yesterday or just describe one of the characters to a grown up. Now have a go at writing some sentences about the character using your writing frames I have given you. You don't have to do them all just pick one or two. Try and use some of the describing words from yesterday (adjectives).

### **MATHS**

Today we are going to start by warming our brains up and counting in 2's, 5's and 10's. Now we are going watch some counting in 2's

[BBC iPlayer - Numberblocks - Series 2: The Two Tree](#)

[BBC iPlayer - Numberblocks - Series 4: Terrible Twosday](#)

Now can you gather lots of your toys and arrange them into groups of 2 and count them?

This afternoon we will be beginning to learn about plants and their parts. I have put a powerpoint on for you to work through. Maybe you could look at a real flower and take it apart so you can investigate what is inside.

Can you have a go at either

- 1) making a plant picture as in the powerpoint and labelling it

or

2) using the plant labelling sheet BUT only page 2

If you want to do more then have a go at labelling the tree picture as well.

Enjoy playing with plants!

Love Mrs.Oakes
