

Bishop Cornish CEVA Primary School

To inspire through faith and love, that all may flourish

Issue 29: Friday 15th May 2026

Phone: 01752 845463

Headteacher: Mrs Tracey Fletcher

Safeguarding Team: Tracey Fletcher (Headteacher and Designated Safeguarding Lead)

Vicky Oakes (Deputy Designated Safeguarding Lead)

'Learn to do right. Seek justice.' **Isaiah 1:17**

This half term's value:

Justice

Dear Parents and Carers,

We finished last week with our second couch to 5K training with Mr Brown. It was wonderful to see so many of you joining us for our Friday exercise. We very much hope that you enjoyed the session.

We have had another busy week at Bishop Cornish. The children in Year 6 have sat their Statutory Assessment Tests. We have started each day with a fabulous, cooked breakfast – pancakes on Monday, sausage baps on Tuesday, pastries on Wednesday, finished off with a full English on Thursday. A huge thank you to Sarah and Joanie for the amazing food. The children have eaten well each day and gone on to take their tests with a determined, positive mindset. We are super proud of their hard work both this week and leading up to taking their tests.

On Thursday afternoon, the whole school enjoyed their donut treats from their Easter prizes. Thank you to the PTA. A quick reminder that there will be an Extraordinary General Meeting for the PTA on Monday 18th May at 3.30pm. All are welcome!

Also next week, the children will be auditioning for the school play Moana. We are really looking forward to seeing them act and sing.

On Thursday 21st May we will be welcoming new families to Bishop Cornish as they attend our New Intake Meeting in readiness for their children starting in September 😊 .

I wish you all a wonderful weekend,

Mrs Fletcher

SPORTS REPORT

Monday 25th May to Friday 29th May
Half Term

Thursday 21st May
New Reception Intake Meeting

Monday 1st June
Inset day

Tuesday 2nd June
Back to school & extra-curricular clubs continue

Monday 8th June

(No Couch to 5K on this day)

Wednesday 24th June
Sports Day

Monday 29th June – date change
Sports Teams Photographs – Tempest
Photography (all kits will need to be in school)

Wednesday 1st July
KS1 Beach Trip

Friday 3rd July
Couch to 5K event!

Y1/2 CLUSTER FOOTBALL TOURNAMENT

On Monday we took a girls and a boys team to the first of two Y1/2 tournaments. It was lovely to see so many younger children enjoying playing football together. The boys team finished 1st and the girls team were 4th. Player of the Tournament was Emelia G. Well done everyone.

GIRLS SE CORNWALL FOOTBALL LEAGUE

A big well done to our very young girls A team who defeated SRG 8-0 last night in awful rainy conditions which means we have won the League after winning every game. Skipper Lois was Player of the Match. Congratulations girls!

BOYS SE CORNWALL FOOTBALL LEAGUE

Our A team for next year played their final league game of the season against SRG straight after the girls in hot and sunny conditions this time! After conceding an early goal the team showed great resilience to finally hold onto a well -deserved 2-1 win. Joint Players of the Match were both our goalies- Will and Albie.

Message from Rev Laura Bushell Hawke

Thy Kingdom Come is a global time of prayer between Ascension and Pentecost, when churches all around the world take a few moments each day to pray for others. We’re joining in too, praying for our community and for five people we care about, asking God to bring hope, peace, and kindness into their lives. It’s a gentle way of helping children and adults remember that our prayers can make a difference. If you would like to join us at any of our daily prayer sessions, they can be found on our website <https://www.saltashteamministry.org/thy-kingdom-come-14-24-may.html>

FOOTBALL KIT

Please can all football kits be returned to school the following day. We have several fixtures throughout the week and it is important that all children have the opportunity to wear the donated kits when representing the school.

If your child has multiple matches, please could you send a dojo to Mrs Mann letting her know what you have.

The kits can be washed in school if it’s a quick turnaround, thank you for your support.

THANK YOU!

We would like to say a huge thank you to the Newton-Durrand family for their incredible generous donations to help support/start our schools garden project.

Thank you to all our families that have dropped in donations for the garden project and to Home Bargains for their donations of seeds. Your generosity is really appreciated.

Miss Quick & Miss Wilmot have been working extremely hard to prepare the area for growing vegetables and flowers with the children. A very special shout out to them for all of their hard work and dedication in helping bring this project to life for the children.

Achievement Award

Marley in Reception Class for working hard in practising and recognising his phonics sounds. Keep it up Marley!!

Oliver in Year 1 for working super hard in all lessons.

Lyla is a model pupil in Year 2. She is kind and caring and gives the best hugs. She also has worked super hard on her story this week and Mrs.Oakes is very proud of her.

Myah in Year 3 has been working extra hard with her literacy, showing perseverance and determination. She has planned a story based around ' The Incredible Book Eating Boy' and come up with some great, imaginative ideas. Well done Myah.

Molly in Year 4 has worked extremely hard on her recent piece of writing on 'Should we keep animals in zoos?' Her editing and self-assessment of her own writing were exceptional - well done Molly.

Alfie in Year 5, for his superb representations of the life cycle of a bird. He clearly showed the different parts and demonstrated an excellent understanding of how each part supports growth and development.

Year 6 for their positive mindsets and perseverance to their SATs. We are so proud of them.

Values Award

Erin in Reception Class for always demonstrating the value of Justice by showing a great understanding of fairness and treating others kindly and equally.

Junior in Year 1 has a great sense of justice.

Richard in Year 2 is getting really good at knowing what is right and wrong. He lets us know but using his super words.

Isabel in Year 3 is a model Year 3 pupil and stands up for what is right in a calm, mature and respectful way. She can explain the importance of values and provide good examples. Well done Isabel!

Ollie in Year 4 has a strong sense and understanding of Justice and he has demonstrated this throughout the week. Well done.

Maddie in Year 5, for showing fairness, honesty, and kindness towards others, demonstrating a strong sense of right and wrong.

Naya and **Harper** in Year 6 have been phenomenal helping out in KS1 at lunchtimes. They always do the right thing and have been outstanding support to the adults.

Beautiful handwriting presentation BFF (Bottoms, Feet, Fingers)

Bertie in Reception Class

Maxwell in Year 1

Isaac in Year 2

Samuel in Year 3

Eliza in Year 4

William in Year 5

This week in school we have...

This week in Reception, we have continued exploring *Stick Man*, thinking carefully about how he might have felt when he was away from his family tree. The children came up with some brilliant vocabulary to describe his emotions. We also explored where we live and compared this to different places around the world, considering where else Stick Man might have travelled on his adventures. In Phonics, we have been focusing on our red words and have been practising extremely hard to recognise and remember them. Whilst in Maths we have been learning about the composition of numbers 5 to 9. Finally in Jigsaw we have spoken about friendships and discussed what we can do if we fall out with our friends.

This week the Year 3's have been learning about farming in Cornwall. They've looked on Google Earth to discover how much land is used for farming and have investigated what is grown and produced in Cornwall. They have also learnt about the legend of the Mermaid of Zennor and read the story of the Mousehole cat which is set in Cornwall. In RE they have been discussing forgiveness and created some paper boats with inspiring messages on them.

This week Year 6 have demonstrated all their values. They have sat their assessments with positive mindsets, determination, and perseverance. The whole school is so proud of them, and they should be proud of themselves. They have thoroughly enjoyed their special breakfast treats; I can't believe how much they can eat! It was so lovely to surprise them with the trip to Bounce; they had an amazing time to celebrate the end of their assessments.

This week in Year 1, we have been writing our own stories inspired by Grandad's Island. We have been learning about deciduous and evergreen trees. Thinking about halves and quarters. Doing some art around belonging in R.E. and much more.

This week Year 2 have loved building their micro habitats in the wood. They also went animal mad in geography where they explored national parks in Africa and even designed their own. In literacy they have been amazing writers and Mrs. Oakes has been astounded by their progress. In maths they have tackled time and are getting really good at working out what time a clock is showing. They loved their African dancing session and can't wait to bring their shield designs to life next week.

This week, Year 4 have been working hard in their maths lessons learning about money. We really enjoyed setting out classroom up as a shop to bring this topic to life. In our science lessons, we have been finding out about both air and water pollution and how this can cause global warming - everyone was really interested in this and could share thoughtful ideas about ways in which we can help with this. We have also been artists by studying and then sketching in detail a selection of Viking knot patterns - they look amazing.

This week in Year 5, we have been exploring how Christians may use God's words in the *Exodus* story to support them in tricky situations. In Science, we explored the life cycle of birds by dissecting an egg to observe the different parts that enable a bird to grow and develop. In Maths, we have been using bar models to represent finding fractions of a quantity in different contexts.
