

Hi my Monday magicians!!

I hope you managed to get some fresh air over the weekend and enjoyed spending time with your families.

Here are lots of things you could have a go at while you are at home.

### **READING TIME**

You may have already finished your book but don't forget there are the Oxford owl books that you can access from home.

### **PHONICS TIME**

This week we will be focusing on the sound ai for the first two days. Can you watch my video of me teaching you the sound today?

### **LITERACY**

This week we are going to carry on thinking about the story of Beegu and you can watch it again if you would like. Why do you think the children treated her differently to the adults? What would you do with Beegu?

Draw a picture of what you would do with Beegu. If you can, write down in a sentence what you would do. Think carefully about the sounds you will use and about adding in finger spaces and full stops.

### **MATHS**

Over the next two days we are going to be continuing to work on partitioning numbers into tens and units. You can start today by watching my little video where I will show you what to do. Today is all about making a number using tens and ones and you can use whatever apparatus you have i.e. sticks, forks, smarties, buttons etc. I will explain the task on the video.

This afternoon we will be doing PE. We will be rolling, throwing and catching a ball so maybe you can go outside and play with a grown up.

Have a lovely day!

Love Mrs.Oakes
