

Mental or written addition?

$246 + 50$

$348 + 201$

$645 + 273$

$738 + 199$

$62 + 38$

$378 + 56$

- 1 Draw a circle around the additions you would choose to work out using a **mental** method.
- 2 Draw a square around the additions you would choose to work out using a **written column** method.
- 3 Choose three mental additions and work each one out.

Addition round

There's a clue in this title!

Choose pairs of numbers and work out the exact answer each time.

234 289 365 127 316 184 478

- 4 Choose two numbers with a total between 300 and 400.

- 5 Choose two numbers with a total between 400 and 500.

- 6 Choose two numbers with a total between 500 and 600.

Addition challenge!

- 7 Write a pair of your own 3-digit numbers with a total of exactly 1000.
- 8 Write a pair of your own 3-digit numbers with a total over 1000.
