

Hello Year 4! – Tuesday 24.3.20

Hope you are all ok! Some more activities ideas for you.

### **1) English**

Can you make up your own mythical creature? Have a go at drawing it and thinking about its powers. Discuss your creature with a family member!

### **2) Maths**

I have set some tasks on Mathletics – you can complete these throughout the week, as and when you can.

### **PE –**

Put your favourite songs on and dance around your house/garden! Get your family to join in too!!!

(Note to parents – please remember these are only suggested activities to give you some ideas. Please don't worry if it is not possible, for whatever reason, to complete these. We are not expecting you to 'teach' your child but to practise and explore as best you can. Don't put pressure on yourselves to complete a 6 hours school day at home! A couple hours a day is plenty (unless they wish to do more!). Make activities fun! Use this time to spend with your children: cooking, singing, reading, playing games, building dens etc. – they will learn so much from this!)

Take Care

Mrs Nile & Mrs Edwards
